

Call for collaborators

For the French lab from June 29th to July 5th, 2025 about **Sciences**

[>> Application form to apply from 24th February until March 16th 2025](#)

IDEA 1

Mobile Clim'Action - *Let's talk climate, impacts, and actions, locally !*

IDEA 2

Fossil Memory - *Discovering the Hidden Treasures of the Brest Harbor*

IDEA 3

Rediscovering the biodiversity of a territory - *Embark on a journey to discover your environment !*

www.rurablab.eu

Ruralab project : Take action for rural sustainability in Ruralab Citizen Laboratories !

Co-funded by
the European Union

IDEA 1

Mobile Clim'Action - *Let's talk climate, impacts, and actions, locally !*

PROMOTER PRESENTATION

First Name : **Justine**

Residence : **Tréglamus**

Age : **24**

Training : **Master in Environmental, Energy and Transport Economics, Project Management in Sustainable Development**

BRIEF PRESENTATION OF THE PROMOTER

I work in an environmental association as a climate project manager.

I'm very curious and passionate about different things (music, art, hiking...)

BRIEF DESCRIPTION OF THE IDEA TO PROTOTYPE

The climate is changing, with well-known global impacts. But global impacts often feel far from our daily lives! How is climate change affecting your local area, in what ways, and to what extent ?

And what local actions can be taken in response ?

Justine's project envisions a mobile exhibition on climate change that travels from village to village, from school to school, hosting workshops to identify solutions and take action. Actions include adaptation, reducing one's impact, and more.

**PROFILES
WANTED AS
COLLABORATORS**

Cooperative ! and Eco-conscious or Creative or Skilled in fabrication

IDEA 2

Fossil Memory - *Discovering the Hidden Treasures of the Brest Harbor*

PROMOTER PRESENTATION

First Name : **Florian**

Residence : **Loperhet**

Age : **29**

Training : **Master's Degree in Scientific, Technical and Heritage Mediation / Master's Degree in Paleontology**

BRIEF PRESENTATION OF THE PROMOTER

I am a Science Educator.

I kind of Paleontology and and passionate about promoting local fossil heritage

BRIEF DESCRIPTION OF THE IDEA TO PROTOTYPE

Did you know? The seabed of the Brest harbor is rich in fossils, often unknown to the general public. How can we showcase these fossils while preserving them?

Florian's project aims to design educational tools to raise awareness of local fossils and draw attention to what often goes unseen.

PROFILES WANTED AS COLLABORATORS

Cooperative ! and Educational experience or Creative or Skilled in fabrication

IDEA 3

Rediscovering the biodiversity of a territory - *Embark on a journey to discover your environment !*

PROMOTER PRESENTATION

First Name : **Erell**

Residence : **Le Relecq-Kerhuon**

Age : **23**

Training : **Bachelor of Arts in product design**

BRIEF PRESENTATION OF THE PROMOTER

I am a designer.

I am interested in hand-making and collaborative projects linked with territories.

BRIEF DESCRIPTION OF THE IDEA TO PROTOTYPE

Natural environments are often seen as mere backdrops or tourist attractions.

Erell's project challenges the visitor's perspective. It involves installing signage markers on existing infrastructure, providing information about local wildlife, flora, geology, and more, along with an interactive map to guide visitors through their exploration.

These elements aim to spark scientific curiosity and encourage a playful approach to discovering the area through personalized routes and active exploration.

**PROFILES
WANTED AS
COLLABORATORS**

**Cooperative ! and Skilled in biodiversity or
or Creative or Skilled in fabrication**
